### **step-by-step tutorial**

of how that specific function operates.

{loadposition rosentrain}

- \* *Virtual 6-Disc CD Changer (Store CD's to the systems on-board memory)*
- \*\* *For this function to operate a cell phone must be paired to the system*

**For additional information please refer to the Quick Reference Guide or Owners Manuals included with your system.**

Each **Rosen** in-dash, multi-media system has a unique layout of control buttons that are **fairly self-explanatory** so the training provided here will not address these. Depending on your **specific installation**, one or more of the system options (**iPod or SAT Radio**) may or may not be installed on your system.
