

## Night Time Driving Just Got Safer with Auto-dimming Mirrors

Eliminate dangerous glare from rear-approaching headlights with this sophisticated night driving safety accessory from Gentex Corporation. Special sensors and electronic circuitry detect glare and automatically dim the mirror accordingly.

An accurate self-calibrating compass keeps you on track; exterior temperature display warns you with an ICE indicator when outside temperature is at or below 37 degrees.

## Auto-Dimming Mirrors with HomeLink

HomeLink, the Wireless Control System that learns the codes for up to three remote control devices, is now available in an auto-dimming rearview mirror through MITO Corp. No more fumbling to find the remote control.

No more crowded visors with multiple remotes for garage door openers, security lights and entry gates. Now all these devices can be operated with dedicated buttons integrated into a auto-dimming rearview mirror equipped with HomeLink.
