LiquiCell is an ultra thin, liquid interface technology specifically designed to relieve the discomfort one experiences over time when their body is in contact with another object.

{flv}LiquiCellMix2{/flv}

When applied to **vehicle seating**, seat coverings or seat components, **LiquiCell's** thin **liquid-filled interface technology**

is designed to

reduce passenger fatigue, numbness, fidgeting and tailburn while sitting

. LiquiCell is backed by a 3 year/36,000 mile national warranty.
